EDUCATION

M.Sc. in Statistics - 2025
Dr. M.G.R. Educational & Research Institute

BCA in Computer Application – 2007

PROJECT

Master of Science in Statistics – Final Year Project: -*Statistical Analysis of Road Accident Patterns and Contributing Factors in India.*

Utilized ***Python (Pandas, NumPy, SciPy, Seaborn, Matplotlib, JupyterNotebook)***

TECHNICAL SKILLS

- SQL (SSMS)
- ETL (SSIS)
- Power BI
- Power Automate (Cloud + PAD)
- Microsoft Fabric
- Data Modelling in Power BI
- Python Basics & Machine Learning

PROFESSIONAL OVERVIEW

Data & BI Expert with 14 years of experience in analytics, business intelligence, and data modelling, skilled in **Python basics, machine learning, Power Automate, Microsoft Fabric, SQL development, and Power BI**. Adept at building **end-to-end data pipelines** that connect source systems to BI destinations, enabling automation, predictive insights, and data-driven decision-making. Currently focused on advancing into **data science roles**, applying machine learning and modern cloud platforms to deliver innovative solutions.

PROFESSIONAL EXPERIENCE

Senior Data & BI Consultant *Cognizant Technology Solutions* | *Jan 2024 – Present*

- Designed and implemented **Power BI data models** connecting multiple source systems to BI destinations, improving reporting accuracy by 35%.
- Automated workflows using **Power Automate,** reducing manual reporting effort by 20+ hours per month.
- Leveraged **Microsoft Fabric** to modernize data pipelines, enabling faster integration and real-time analytics.

Senior Data Analyst / BI Specialist *Cognizant Technology Solutions* | *May 2015 – Dec 2023*

- Developed and optimized **SQL scripts,** improving data processing speed by 40%.
- Built predictive dashboards in **Power BI,** empowering executives with actionable insights.
- Collaborated with cross-functional teams to establish **data governance standards**, ensuring consistency across BI platforms.
- Automated ETL processes, streamlining data ingestion from diverse sources.

Data Analyst *Cognizant Technology Solutions* | *Apr 2012 – Apr 2015*

- Created foundational **BI models** linking raw data sources to reporting systems.
- Implemented **Excel-based automation**, saving 15+ hours weekly in manual reporting.
- Supported early adoption of **OLAP cubes,** enabling faster query performance for business users.
